 [Sasi Gandikota](#)

EDUCATION

B.Tech, Computer Science and Engineering
Gayatri Vidya Parishad College of
Engineering(A)

2019 - 2023

CGPA - 8.67

SKILLS

- C, C++, Python
- React.js
- SQL
- Spring
- TypeScript
- Deep Learning
- Computer Vision
- SnowSQL, Metabase

CODING PROFILE

[Codechef](#) (Sasigandikota)

Highest rating: 1754

[LeetCode](#) (Sasi sekhar)

Solved more than 300 problems

[Codeforces](#) (Sasi123)

Solved around 100 problems

ROLES AND RESPONSIBILITIES

- **Chegg Subject Matter Expert (Freelancer)**

Solved around 50 doubts in chegg platform as an expert tutor

- **Technical Content speaker at GVP AI club**

EXPERIENCE

TypeFace Inc | Software Developer Intern

Jan - July 2023 | Hyderabad

- Worked on several frontend production features
- Developed In-Line editing feature which uses GPT-4 engine
- Authored several automation tests using cypress and jest framework(ReactJS)
- Created a file system with CRUD API using **Spring Boot** and **MySQL Database** for server-side architecture, employed **React** framework for frontend development with automation tests(Integration tests) for validating API calls

Infinity Learn | Machine Learning Intern

July 2023 - present | Hyderabad

- Worked on several **Metabase** reports using **SnowSQL**
- Employed Machine learning algorithms like **K-means clustering** to solve unsupervised business problems like Student Engagement prediction, Used **SnowSQL** to extract robust data from snowflake
- Worked on Lead to sale conversion project to identify the potential leads given student interaction with the platform, used **Ensemble neural networks** and **random forest** techniques, we were able to efficiently solve the biasness problem by following advanced preprocessing techniques like SMOTE etc

PROJECTS

Automated reCAPTCHA | Team lead

- Developed an advanced object identification model using **Detectron2** (framework)
- We used mask RCNN as backbone for the model and designed our own algorithm in PyTorch to extract objects from a grid of image segments

Image Editor

- Built an Image editor app using **react framework** which supports image operations like upload, delete, rotate, crop, overlay

ACHIEVEMENTS

- Finalist in Manthan (Hackathon), 2021
- Smart India Hackathon finalist, 2023
- Secured 4084 global rank in Hashcode 2022
