

Objective:

- A Computer Science graduate with comprehensive knowledge of SDLC and STLC, along with expertise in key testing phases. Proficient in Testing methodologies and experienced in utilizing test management tools such as JIRA. Skilled in automation testing using Selenium with Java and Cucumber BDD Framework. Seeking a challenging position where I can leverage my skills in automation testing, SDLC, and agile methodologies to contribute to high-quality software development.

Education:

- B. Tech (CSE) from B. V. Raju Institute of Technology, Vishnupur, Telangana. (2019-2023) -- 67%
- Intermediate (MPC) from Sri Chaitanya Junior College, Hyderabad. (2017-2019) – 87%
- SSC from Gayatri Grammar School, Hyderabad. (2016-2017) – 90%

Skills:

- **Programming Languages:** C, Java, Python, SQL
- **Testing Frameworks:** Selenium WebDriver, Cucumber (BDD), TestNG, POM, REST API, Jenkins.
- **Testing Methodologies:** Manual/Automation testing, API testing, Agile methodologies, Scrum, SDLC, STLC, Unit Testing, Integration Testing, etc.
- **Test Management Tools:** JIRA, ALM, Test Tool Management
- **Version Control Systems:** GitHub
- **CI/CD Pipelines:** Familiar with CI/CD concepts

Trainings:

- Have undergone exclusive training on Software Testing course which includes both Manual & Automation Testing at Q-Icon, Hyderabad.
- Conducted manual and automated testing activities, including test case creation, execution and defect tracking.
- Utilized TestNG and Cucumber for automation testing, ensuring robust test coverage and reliability.

Certifications:

- Participated in OOPs in Java at Udemy, Great Learning Academy.
- Participated in Software Testing at Great Learning Academy.

Projects:

a. **Auditory responses to sign language conversion:**

This project describes the development of a sign language translator that converts sign language into speech and text using wearable devices and makes abled citizen lives easy to communicate with everyone.

b. **Traffic sign recognition:**

This project classifies traffic signs on the road and provides information about traffic rules, road conditions, route directions, and assists drivers for better and safe driving.

c. **Smart Eat:**

Smart Eat is an online food ordering website that can encourage many small restaurants by making their work easy.

Strengths:

- Smart Learning and Positive Attitude.
- Creative Thinking and Energetic.
- Active Listening, Hardworking and Team Player.

Declaration:

I hereby affirm that the information in this document is accurate and true to the best of my knowledge.
