EDUCATION

Degree/Certificate	Institute/Board	CGPA/Percentage	Year
B.Tech. (EE)	Indian Institute of Technology, Jodhpur	6.64	2024
Senior Secondary	Sri Chaitanya IIT Academy, Telangana	97.1%	2020
Secondary	Sri Chaitanya High School, Telangana	10.00	2018

EXPERIENCE

- CADVision Engineers Pvt. Ltd.** *Jul 2023 - Aug. 2023*
Software Engineering Intern *Hyderabad*
 - Conducted in-depth research to identify and recommend the integration of the Django Filter library, enhancing data filtering capabilities in the web application.
 - Implemented and fine-tuned the filtering system, allowing users to customize and efficiently retrieve specific data sets, resulting in a more streamlined and user-friendly experience.
 - Revamped the user interface, leveraging user research findings, resulting in a more intuitive, ultimately improving overall user satisfaction and engagement.
 - Collaborated closely with the development team, actively participating in discussions and providing valuable insights that contributed to project planning and decision-making.

PROJECTS

- Face Mask detection using Microcontroller** *Feb. 2023 - Apr. 2023*
Course Project *GitHub*
 - Tools & technologies used:** Numpy, Pandas, TensorFlow, OpenCV
 - Designed and implemented a real-time face mask detection system using **Raspberry Pi** and camera module, achieving a commendable **93%** accuracy on test data.
 - Leveraged **OpenCV** for efficient face detection, seamlessly integrating with a pre-trained **Convolutional Neural Network (CNN)** model for classification.
- Data Analytics for the disease diagnosis using Nano-Sensors** *Mar. 2022 - Jul. 2022*
Design Project *GitHub*
 - Tools & technologies used:** Numpy, Pandas, Scipy, Matplotlib, Scikit learn
 - Applied data preprocessing techniques and employed **Principal Component Analysis (PCA)** to analyze Raman spectra data, successfully identifying the presence of Rhodamine B and categorizing samples accordingly.
 - Implemented **KMeans Clustering** methodology post PCA, utilizing cluster centers for accurate classification and differentiation of samples based on spectral characteristics.
- Customer and Booking Management System** *May. 2023 - Jun. 2023*
Self-Learning Project *Github*
 - Tools & technologies used:** Django, HTML, CSS
 - Developed a Django-based web app for streamlined customer data and booking management.
 - Established clear data relationships between 'Customer' and 'Booking' entities for efficient data retrieval and organization.

KEY COURSES TAKEN

- Data Structures and Algorithms, Pattern Recognition and Machine Learning, Introduction to Computer Science, Computer Architecture, Embedded Systems, Linear Algebra, Calculus, Probability and Statistics, Signals and Systems

TECHNICAL SKILLS

- Programming:** C/C++, Python, Matlab
- Machine Learning:** Jupyter Notebook, Google Colab, Pandas, Matplotlib, Numpy, scikit-learn, Pytorch
- Web Skills:** HTML/CSS, Django
- Others:** Git, Latex, Verilog

POSITION OF RESPONSIBILITY

- Assistant Head** Varchas'22, IIT Jodhpur *Mar.2022 - Apr.2022*
